

Test Scenario ID	Module	Feature	Test Scenario	Test Case ID	Test Case Title
MOD-01-TS-001	Elements	Text Box	Verify that the Text Box feature on the Text Box page allows users to enter and submit text.	TC001	Validate text input submission
MOD-01-TS-001	Elements	Text Box	Verify that the Text Box feature on the Text Box page allows users to enter and submit text.	TC002	Verify error message for invalid email
MOD-01-TS-001	Elements	Text Box	Verify that the Text Box feature on the Text Box page allows users to enter and submit text.	TC003	Validate text input submission at edge level
MOD-01-TS-002	Elements	Check Box	Verify that users can select and deselect multiple checkboxes on the Check Box page.	TC001	Validate checkbox selection and deselection
MOD-01-TS-002	Elements	Check Box	Verify that users can select and deselect multiple checkboxes on the Check Box page.	TS001	Verify behavior of partially selected checkboxes
MOD-01-TS-003	Elements	Radio Button	Verify that only one radio button can be selected at a time on the Radio Button page.	TS001	Validate radio button selection behavior
MOD-01-TS-004	Elements	Web Tables	Verify that users can add, edit, search, and delete records in the web table on the Web Tables page.	TS001	Validate adding a new record
MOD-01-TS-004	Elements	Web Tables	Verify that users can add, edit, search, and delete records in the web table on the Web Tables page.	TS002	Validate search functionality
MOD-01-TS-004	Elements	Web Tables	Verify that users can add, edit, search, and delete records in the web table on the Web Tables page.	TS003	Verify edit functionality
MOD-01-TS-004	Elements	Web Tables	Verify that users can add, edit, search, and delete records in the web table on the Web Tables page.	TS004	Verify record deletion
MOD-01-TS-005	Elements	Buttons	Validate button actions, including double-click, right-click, and normal click, on the Button page.	TC001	Validate normal button click
MOD-01-TS-005	Elements	Buttons	Validate button actions, including double-click, right-click, and normal click, on the Button page.	TC002	Validate double-click functionality
MOD-01-TS-005	Elements	Buttons	Validate button actions, including double-click, right-click, and normal click, on the Button page.	TC003	Validate right-click functionality
MOD-01-TS-006	Elements	Links	Verify the functionality of working and broken links on the Links page.	TC001	Validate working links
MOD-01-TS-006	Elements	Links	Verify the functionality of working and broken links on the Links page.	TC002	Validate broken link behavior

MOD-01-TS-007	Elements	Upload & Download	Validate the file upload and download functionality on the Upload & Download page.	TC001	Validate file upload
MOD-01-TS-007	Elements	Upload & Download	Validate the file upload and download functionality on the Upload & Download page.	TC002	Validate file download
MOD-01-TS-008	Elements	Dynamic Properties	Verify that dynamically enabled elements become active correctly on the Dynamic Properties page.	TC001	Validate dynamic button appearance
MOD-02-TS-001	Forms	Practice Form	Verify that input field validation and form submission work as expected on the Practice Form page.	TC001	Validate forms inputs and submissions
MOD-03-TS-001	Alerts, Frames & Windows	Alerts	Validate handling of simple, confirmation, and prompt alerts on the Alerts page.	TC001	Validate all possibilities on Alert
MOD-03-TS-002	Alerts, Frames & Windows	Frames	Verify correct navigation and interaction within frames on the Frames page.	TC001	Validate all nooks to cover frames
MOD-03-TS-003	Alerts, Frames & Windows	Modal Dialogs	Validate pop-up modals display and function correctly on the Modal Dialogs page.	TC001	Validate popup mechanisms on Modal dialogs
MOD-04-TS-001	Widgets	Accordion	Verify the expandable and collapsible sections on the Accordion page.	TC001	Validate the Accomedation page on widget
MOD-04-TS-002	Widgets	AutoComplete	Validate search suggestions based on input in the AutoComplete feature.	TC001	Validate the AutoComplete Feature on Widget
MOD-04-TS-003	Widgets	Date Picker	Check the date selection functionality on the Date Picker page.	TC001	Validate Date picker techniques on Widget
MOD-04-TS-004	Widgets	Progress Bar	Validate progress bar behavior on the Progress Bar page.	TC001	Validate the current progress on Progress bar on Widget
MOD-04-TS-005	Widgets	Tabs & ToolTips	Verify tab switching and tooltip display functionality on the Tabs & ToolTips page.	TC001	Validate tabs and tooltips on widget
MOD-05-TS-001	Interactions	Drag & Drop	Verify drag-and-drop functionality for elements on the Drag & Drop page.	TC001	Validate drag and drop functionality
MOD-05-TS-002	Interactions	Selectable	Validate element selection behavior on the Selectable page.	TC001	Validate element selection
MOD-05-TS-003	Interactions	Resizable	Verify element resizing functionality on the Resizable page.	TC001	Validate element resizable
MOD-06-TS-001	Book Store Application	Search Functionality	Validate book search functionality using title and author on the Book Store page.	TC001	ECOM_Validate Search functionality

MOD-06-TS-002	Book Store Application	User Collection	Verify that users can add and remove books in the User Collection section.	TC001	ECOM_Validate User Collection
MOD-06-TS-003	Book Store Application	Login/Logout	Validate authentication and session handling for login/logout on the Login page.	TC001	ECOM_Validate Login Logout
MOD-07-TS-001	Non-Functional	Performance	Verify that the page load time is within acceptable limits for all pages of the website.	TC001	NA
MOD-07-TS-002	Non-Functional	Performance	Test system behavior under high user load, simulating many users interacting with the website.	TC001	NA
MOD-07-TS-003	Non-Functional	Usability	Ensure user-friendly navigation and proper feedback messages across the website.	TC001	NA
MOD-07-TS-004	Non-Functional	Security	Validate input sanitization to prevent SQL injection attacks across the website.	TC001	NA
MOD-07-TS-005	Non-Functional	Security	Verify that session timeout and logout functionality work as expected across the website.	TC001	NA
MOD-07-TS-006	Non-Functional	Compatibility	Test the website's responsiveness across different browsers (Chrome, Firefox, Edge, Safari) and devices.	TC001	NA

TestMethod	Test Type	Test Priority	Test Execution Level	Pre-Conditions	Test Steps
Mod-01-Ts-001_Tc001_ValidateTextInputSubmission	Functional	2	E2E, Regression	User is on the Text Box page	1. Navigate to Text Box page 2. Enter "John Doe" in Full Name field 3. Enter "test@example.com" in Email field 4. Click Submit 5. Verify output displays entered values
Mod-01-Ts-001_Tc002_VerifyErrorMessageForInvalidEmail	Negative	2	Regression,E2E	User is on the Text Box page	1. Navigate to Text Box page 2. Enter "John Doe" in Full Name field 3. Enter "invalid-email" in Email field 4. Click Submit 5. Verify error message for invalid email
Mod-01-Ts-001_Tc003_ValidateTextInputSubmissionAtEdgeLevel	Negative	2	Regression, E2E	User is on the Text Box page	1. Navigate to Text Box page 2. Enter "John Doe" in Full Name field 3. Enter "invalid-email" in Email field 4. Click Submit 5. Verify error message for invalid email
Mod-01-Ts-002_Tc001_ValidateCheckboxSelectionAndDeselection	Functional	2	Sanity, Regression	User is on the Check Box page	1. Navigate to Check Box page 2. Select "Home" checkbox 3. Verify that all child checkboxes are selected 4. Deselect "Documents" checkbox 5. Verify that deselection is reflected
Mod-01-Ts-002_Ts001_VerifyBehaviorOfPartiallySelectedCheckboxes	Functional	2	Regression	User is on the Check Box page	1. Navigate to Check Box page 2. Expand checkboxes 3. Select only "Downloads" checkbox under "Home" 4. Verify that "Home" checkbox shows partial selection state
Mod-01-Ts-003_Ts001_ValidateRadioButtonSelectionBehavior	Functional	1	Sanity, Regression	User is on the Radio Button page	1. Navigate to Radio Button page 2. Select "Yes" radio button 3. Verify "Yes" is selected 4. Select "Impressive" radio button 5. Verify that "Yes" is deselected
Mod-01-Ts-004_Ts001_ValidateAddingANewRecord	Functional	4	E2E, Regression	User is on the Web Tables page	1. Navigate to Web Tables page 2. Click "Add" and enter valid details 3. Click Submit 4. Verify that the record is added
Mod-01-Ts-004_Ts002_ValidateSearchFunctionality	Functional	4	Regression	User is on the Web Tables page	1. Add a record "John Doe" 2. Search for "John Doe" 3. Verify that only relevant records are displayed
Mod-01-Ts-004_Ts003_VerifyEditFunctionality	Functional	4	Regression	User is on the Web Tables page	1. Search for "John Doe" 2. Click Edit and update Salary 3. Verify that the updated value is reflected
Mod-01-Ts-004_Ts004_VerifyRecordDeletion	Functional	4	Regression	User is on the Web Tables page	1. Search for "John Doe" 2. Click Delete 3. Verify that the record is removed
Mod-01-Ts-005_Tc001_ValidateNormalButtonClick	Functional	3	Smoke, E2E	User is on the Button page	1. Click "Click Me" button 2. Verify success message
Mod-01-Ts-005_Tc002_ValidateDoubleClickFunctionality	Functional	3	Smoke, E2E	User is on the Button page	1. Double-click "Double Click Me" button 2. Verify success message
Mod-01-Ts-005_Tc003_ValidateRight-ClickFunctionality	Functional	3	Smoke, E2E	User is on the Button page	1. Right-click "Right Click Me" button 2. Verify success message
Mod-01-Ts-006_Tc001_ValidateWorkingLinks	Functional	2	Sanity, Regression	User is on the Links page	1. Click "Home" link 2. Verify that it redirects to home page
Mod-01-Ts-006_Tc002_ValidateBrokenLinkBehavior	Negative	2	Regression	User is on the Links page	1. Click on a broken link 2. Verify that it shows a 404 error

Mod-01-Ts-007_Tc001_ValidateFileUpload	Functional	2	E2E, Regression	User is on the Upload & Download page	1. Select a valid file 2. Click Upload 3. Verify upload success message
Mod-01-Ts-007_Tc002_ValidateFileDownload	Functional	2	E2E, Regression	User is on the Upload & Download page	1. Click Download 2. Verify file is downloaded
Mod-01-Ts-008_Tc001_ValidateDynamicButtonAppearance	Functional	1	E2E, Regression	User is on the Dynamic Properties page	1. Wait for "Visible After 5 Seconds" button 2. Verify it appears 3. Click and confirm action
Mod-02-Ts-001_Tc001_ValidateFormsInputsAndSubmissions	Functional	P1	Regression	User should be on Practice Form page.	1. Navigate to Practice Form page 2. Enter all required fields 3. Submit form 4. Validate success message
Mod-03-Ts-001_Tc001_ValidateAllPossibilitiesOnAlert	Functional	P1	Smoke	User is logged in and on Alerts page.	1. Trigger simple alert and accept 2. Trigger confirm alert and accept/dismiss 3. Trigger prompt alert and enter text
Mod-03-Ts-002_Tc001_ValidateAllNooksToCoverFrames	Functional	P2	Regression	User on Frames page.	1. Switch to frame 2. Validate content inside frame 3. Switch to nested frames 4. Validate content
Mod-03-Ts-003_Tc001_ValidatePopupMechanismsOnModalDialogs	Functional	P1	Smoke	User is on Modal Dialogs page.	1. Open small modal 2. Verify content 3. Close modal 4. Open large modal 5. Validate content
Mod-04-Ts-001_Tc001_ValidateTheAccommodationPageOnWidget	Functional	P2	Regression	User on Accordion page.	1. Click each accordion header 2. Validate expand/collapse behavior
Mod-04-Ts-002_Tc001_ValidateTheAutocompleteFeatureOnWidget	Functional	P1	Regression	User on AutoComplete page.	1. Enter characters in search field 2. Validate dropdown suggestions 3. Select suggestion
Mod-04-Ts-003_Tc001_ValidateDatePickerTechniquesOnWidget	Functional	P1	Smoke	User on Date Picker page.	1. Open date picker 2. Select date manually 3. Validate date input
Mod-04-Ts-004_Tc001_ValidateTheCurrentProgressOnProgressBarOnWidget	Functional	P2	Regression	User on Progress Bar page.	1. Start progress bar 2. Wait until complete 3. Validate progress percent
Mod-04-Ts-005_Tc001_ValidateTabsAndToolTipsOnWidget	Functional	P2	Regression	User on Tabs & ToolTips page.	1. Switch between tabs 2. Validate content 3. Hover on tooltip elements
Mod-05-Ts-001_Tc001_ValidateDragAndDropFunctionality	Functional	P1	Regression	User on Drag & Drop page.	1. Drag source element 2. Drop it on target 3. Validate behavior
Mod-05-Ts-002_Tc001_ValidateElementSelection	Functional	P2	Regression	User on Selectable page.	1. Click selectable items 2. Validate highlight/selection
Mod-05-Ts-003_Tc001_ValidateElementResizable	Functional	P2	Regression	User on Resizable page.	1. Drag resize handle 2. Resize element 3. Validate size change
Mod-06-Ts-001_Tc001_Ecom_ValidateSearchFunctionality	Functional	P1	Smoke	User logged in to Book Store.	1. Enter title/author in search 2. Validate results

Expected Result	Test Data	Actual Result	Post-Conditions	Status	Defect ID	Remarks
Entered text should be displayed correctly in the output section.	Name:Haryish Email:haryishkumaran16@gmail.com Current Address :23,XYZ, sdsd street City-YYUJSD Permananet Address :23,XYZ, sdsd street City-YYUJSD	Entered text are displayed correctly in the output section.	NA	Pass		
Details of the form input should not be displayed	testdata-TS01.json	Details of the form input are not be displayed	NA	Pass		
System should show an error message for invalid email format.	testdata-TS01.json	System didn't thrown error message. Some inputs It throws accepted	NA	Fail		
Checkboxes should behave correctly, selecting/deselecting as per user interaction.						
Parent checkbox should show a partial selection state when only some child checkboxes are selected.						
Only one radio button should be selectable at a time.						
Record should be successfully added and displayed in the table.						
Search should filter and display only relevant records.						
Edited details should be successfully saved and updated in the table.						
Record should be removed from the table after deletion.						
Success message should appear.						
Success message should appear for double-click.						
Success message should appear for right-click.						
User should be navigated to the home page.						
System should display a 404 error page.						

File should be successfully uploaded, and a success message should be displayed.						
File should be downloaded successfully.						
The button should appear after 5 seconds and be clickable.						
Form submitted successfully and validation messages appear correctly.						
Alerts appear correctly and respond as expected.						
Frames load correctly, and content displays as expected.						
Modals open & close properly and content loads correctly.						
Sections expand/collapse smoothly and content shows correctly.						
Suggestions display correctly and selected value populates field.						
Selected date appears correctly in the field.						
Progress bar runs correctly and completes to 100%.						
Tabs load correct content and tooltips show on hover.						
Item moves successfully to target location.						
Selected elements highlight properly.						
Element resizes smoothly within limits.						
Books displayed based on correct filter logic.
