

HARI RAM KUMAR A

QA TEST AUTOMATION ENGINEER

+91 9487817301
hariramkumar2030@gmail.com
Chennai, Tamilnadu

SUMMARY

- A **QA Test Engineer** with **4 years** of experience in both **manual and automation testing** for complex web, mobile and API systems.
- Proven expertise in designing and executing a full spectrum of testing, including **Functional, Regression, Smoke, Sanity, UAT, and End-to-End** within **Waterfall and STLC** model.
- Skilled in developing robust **test automation frameworks** using **Selenium (Java & C#), Playwright, TestNG, NUnit and Cucumber Framework** and also CI Pipelines using **GitHub Actions** and **Jenkins**.
- Proficient with tools like **Postman, Jira, MySQL, Browserstack** for Mobile Testing and **Azure CLI**.

EXPERIENCE

April 2022 – Present

QA Automation Engineer

Tata Consultancy Services, Chennai

- **Engineered** and **executed** comprehensive **end-to-end (E2E) testing** strategies, creating detailed **test plans, test scenarios**, and **RTM** to ensure full test coverage for all business requirements.
- Conducted E2E Testing in UAT environment utilizing tools and techs of both **Manual** and **Automation Tests**.
- Involved in **VisionPlus Testing** on **CMS, TRAMS, LMS, and Authorization** modules to test E2E flow of foundational credit card functionalities.
- Employed UI Testing using **Playwright (Java), Java Selenium + TestNG, C# Selenium + NUnit**, and **API Testing** via **Postman**.
- **Proactively identified, logged, and tracked** defects using **Jira with X-Ray**, enhancing defect visibility and streamlining the resolution workflow for developers and stakeholders.
- Created and maintained **C# unit test cases** using **NUnit**, leveraged **GenAI-assisted code generation** to accelerate development, fixed test failures and code quality issues, and improved unit test code coverage tracked through **SonarQube dashboards**.

Dec 2021– March 2022

Programmer Trainee (QEA)

Tata Consultancy Services, Chennai

- Completed intensive Quality Assurance Engineering training, gaining certified expertise in **testing principles, automation with Selenium WebDriver (Java), Cucumber, TestNG**, and exposure to **Jenkins and Git** for CI/CD processes.

EDUCATION

June 2021

Bachelor of Science (Computer Science)

Thiruvalluvar College, Thirunelveli

Completed with 81.2% through Regular education (full time).

SKILLS & ABILITIES

Category	Skills
Testing Execution Types	Manual Testing Automated Testing
Software Engineering Model	STLC Agile
Testing Tools	Selenium WebDriver Cucumber BDD
Tool for ALM	Jira
Version Control	Git GitHub
SQL and Platforms	MySQL
Programming Languages	Java C# JavaScript HTML CSS
Testing Frameworks	TestNG JUnit NUnit Maven POM Cucumber BDD
Framework Approaches	Data Driven Behaviour Driven Testing
CI/CD	Jenkins GitHub Actions
Testing Types	E2E Functional Regression Smoke Sanity UAT
Domain Specific Platforms	Banking

PROJECT

NEWDAY CARDS AND TECHNOLOGIES (March 2022 – Present)

This project works is done for a banking service named **NewDay Cards Pvt Ltd** specializes in providing consumer finance services, including credit cards, to retail consumers. The company is dedicated to helping people move forward with credit by offering a range of financial products.

Responsibilities:

As a Functional QA in the User Acceptance Testing (UAT) phase, I played a role in ensuring the quality and reliability of their software products focussing on customer onboarding journeys. My responsibilities includes,

- **Test Planning and Design:** Developed comprehensive **Test Plans**, **RTM**, **Test scenarios**, and **Test cases** based on detailed project requirements and specifications.
- **Automation Utility development and support:** Explored, implemented and involved in developing automation utilities through technologies such as **Selenium Java + TestNG** and **Node.JS** for bringing efficiency in test data and test execution process.
- **Test Execution:** Executed test cases both **manually and using automated testing** tools.
 - For **web** automation testing, I utilized **Selenium** WebDriver using **Java**, **Playwright (Java)**, and for API testing, I employed **Postman**.
 - For **Manual** testing, I utilize the tools such as **Browerstack** for Mobile testing and **MySQL** for dataset management.
 - Experience in **FirstVision (VisionPLUS)** testing across **CMS**, **TRAMS**, **LMS**, and **Authorization** modules using BlueZone
- **Defect Management:** Identified software defects and inconsistencies, documented them meticulously, and tracked their resolution using Jira. Provided detailed information to developers to facilitate quick and effective bug fixes.

- **Created and maintained C# unit test cases using NUnit** to validate business logic and service components.
- **Leveraged GenAI-assisted code generation** to accelerate unit test development and improve test coverage for new and existing modules.
- **Fixed unit test failures, code defects** and quality issues identified during execution and static analysis.
- **Monitored and improved unit test code coverage** using **SonarQube dashboards**, ensuring compliance with project quality gates.

COURSE AND CERTIFICATION

- **Java E1** – Tata Consultancy Services, 2022
- **GenAI - E2** - Tata Consultancy Services, 2025
- **GitHub Ultimate: Master Git and GitHub - Beginner to Expert** - Udemy, 2022
- **Selenium WebDriver with Java – Basics to Advanced+ Frameworks** – Udemy, 2022
